

INITIATIVE TO EMPOWER CASAMANCE YOUTH THROUGH LEADERSHIP TOWARDS RECONCILIATION

Testimonial

For me, being a leader is an extraordinary dream, not only because I would have a lot of experience, but I would be respected by all those around me. Thanks to the capabilities that I will have all the doors will be opened to me.

As a leader I would be consulted on many decisions even by the government, but also be able to confront and help resolve many problems that can create terrible violence in our society.

For all these reasons, I am delighted to receive leadership training.
